

# Large Enameled Factory Lamp Model 33 Mi

Price:

Dimensions:

Diameter: 39 cm

Height: 28 cm

## DESCRIPTION

The original enameled luminaire of Soviet production from the 1950s and 1960s.

## CONSTRUCTION

Three-part composite lampshade made of a deep pressed steel sheet, covered with two-colored enamel. Manufacturer's signatures are placed on the outside of the case. The large diameter of the reflector guarantees an excellent light dispersion and a very good lighting of a large area. A steel mounting bracket is installed in the upper part.

## RANGE OF RENOVATION

The lamp has been thoroughly cleaned and polished. A new electrical installation based on certified materials: an electric cable with a braided color identical to the external enamel of the lampshade, a brass bulb holder for thread E 27 - the maximum power of 200 W.

Note: Lamps from the 33 MI series have small mechanical damage to the enamel due to many years of use. The enameled signatures of the manufacturer have been made with varying accuracy. The images are illustrative and show a random example.
