DESCRIPTION

Wall lamp made from the exterior lighting of the military aircraft from the 90s.

CONSTRUCTION

Anodised aerial aluminum combined with thick profiled plexiglass. The casing and inner frame have original signatures. Rear wall with light source mounting bracket made of sheet steel coated with powder paint RAL 7016 structure. Classic, brass-porcelain lighting fixture. Electrical installation based on certified materials.

Bulb with E 27 base, maximum wattage 60 W. Recommended oblong Edison bulb.

Wall lamp without axial symmetry, there are only 2 available – left and right. The photo shows the left wall lamp. Possible to mount on both the wall and the ceiling.
