A classic representative of the Bauhaus style a bank and an office lamp model 6676/1.

Manufacturer: German company HORAX

Production years: 1930s

CONSTRUCTION

A stable and heavy base of lamp is made of cast iron, on which the arm is mounted with the possibility of adjusting the angle of inclination. In the upper part, a tin pressed lampshade is covered with two-colored enamel (inner part-white, outside-green). The lampshade has its own adjustment of the emitted light setting. The original Horax signature is visible on the right. There is a company logo and a model number on the bottom part of the base.

RANGE OF RENOVATION

The lamp has been thoroughly cleaned, however, with varnish, enamel and patina of time retained. It was secured with a special metal wax. The electrical installation has been exchanged. A new brass bulb holder with a ceramic collar adapted to the source of light for thread E 27, electric wire in black cotton braid, a new plug. The materials used have a safety certificate.
