

ORP-125 Lamp

Price:

Dimensions:

Height (total): 58 cm

Height of shade: 48 cm

Diameter: 46 cm

Weight: 5.5 kg

PRIMARY USE

The lamp was designed to illuminate factory and workshop spaces, where there was dustiness and a chance of a mechanical damage.

Manufacturer: Mesko Zakłady Metalowe, Armii Ludowej 1, Skarżysko Kamienna

Time period: 1970s

CONSTRUCTION

Two steel chambers connected by a hinge. The upper chamber originally had a mercury lamp ballast, the bottom chamber – the so-called lamp – was equipped with a directional reflector made of electropolished aluminum and closed from the bottom with a prismatic glass cover protected by a steel protective mesh. The surface of the lamp was originally covered with aluminum stove varnish. The lamp can be mounted on a hook or a threaded pipe.

ORP-125 Lamp

DESCRIPTION OF THE RENOVATION

The offered lamp has undergone a comprehensive renovation: sandblasting of steel elements, application of a very durable powder coating – (body and a lampshade RAL 1036 premium line), All screws, nuts and washers are new. A new electrical installation based on certified materials. Hinge and side handles – a new galvanic coating – galvanized.

Bulb holder – E 27 thread, maximum power of the bulb: 120 W. It is possible to individually select the color of the lamp based on the RAL color palette both in powder coating and the spray pattern. Optional spray varnish on request: mat, semi-gloss or gloss.

Ordering a non-standard color or colors of the individual components of the lamp is associated with a prolonged waiting time for the product and individual pricing.

Price of individual finish:
