Open cover made of galvanised sheet steel. In factory version, covered with oven varnish, suitable for hanging on chains.

Maximum wattage of the bulb: 250 W.

ORP-2 Lamp

DESCRIPTION OF THE RENOVATION

The offered lamp has undergone a comprehensive renovation: sanding of all metal parts, a very durable powder coating (RAL), replacing all screws, nuts and washers, new electrical installation using certified materials.

Bulb holder – E 27. It is possible to individually select the color of the lamp, based on the RAL color palette as well as the powder coating and the spray pattern.
Optional spray varnish on request: mat, semi-gloss or gloss.

Ordering a non-standard color or colors of the individual components of the lamp is associated with a prolonged waiting time for the product and individual pricing.
The vintage version is a form that retains the original patina of age (lacquer, rust, scratches, discoloration and other traces of use), a new electrical installation based on certified materials.
