

Table „FSO”

Price:

Dimensions: Table top – width: 110 cm, length: 220 cm, total height: 81cm, leg: 15 x 15 cm, foot: 30 x 30 cm, weight: approximately 200 kg

DESCRIPTION

A large steel table made of original Italian poles from the Warsaw FSO “Żerań” passenger car factory built at the turn of the 1940s and 1950s. The poles were the original elements of the production line of a Polish car, Fiat 125, whose production began in 1967.

CONSTRUCTION

Material – steel sheet painted with so-called hammer-paint. The front part with the openwork inscription “WEJŚCIE” and two longitudinal cuts fulfilling the lighting function. From the inside, there are two window panes: green and milk. The base part is equipped with two frames installed for BA 15d type bulbs, electric wires, as well as located mounting holes.

Perfect condition – all elements are original, some of them do not carry signs of use.
We choose signboards for shipping at random.
