Weight: 7 kg

## DESCRIPTION

Original German steel bottle case from the turn of the 20s and 30s of the 20th century. The box comes from Arnold Haendel brewery located in the former town of Dt Eylau - the present name is Iława - the area of Poland.

## CONSTRUCTION

Solid steel construction is combined with rivets, profiled bottom with an additional truss stabilizing the bottle, two large transport handles, 20 bottle compartments.

## RANGE OF RENOVATION

The box has undergone a sandblasting process and then covered with a layer of very resistant to mechanical damages the powder varnish.
