Price:

Dimensions:

Height in the folded position: 154 cm
Height in the protruded position: 222 cm
Leg spacing: 55 cm
Width: 60 cm
Depth 44 cm
Weight: 30 kg

PRIMARY USE

Medical operating lamp Famed 1 was used by health service in hospitals, and medical and dental offices.

Manufacturer: Famed Lodz (former Elektrosan factory)

Production years: 1950s

CONSTRUCTION

Thanks to the use of special screens installed in front of light sources it is shadowless and ensures even light scattering through a large polished reflector. The stable cast iron tripod holds the steel reflector. Wide adjustment range up and down and a headlight inclination angle. The manufacturer's signatures, year of production and serial number are on the original name plates.
