PRIMARY USE

Medical operating lamp Famed B 200 was used by health service in hospitals, and medical and dental offices.

Manufacturer: Famed Lodz (former Elektrosan factory)

Production years: 1970s

CONSTRUCTION

The B 200 lamp is equipped with two lighting sections. Thanks to the use of special screens installed in front of light sources it is shadowless. The lamp is adapted for 24 V halogen bulbs. In the lower part of the base, there is a built-in transformer, a metal reflector casing with a handle for adjusting the lamp inclination angle and a switch. Wide range of up-down settings. The whole set is placed on three wheels. The offered model is highly sought after and appreciated by the "space age" enthusiasts and popularly called "UFO".
