

Historic German Cash Register National

Price:

Dimensions:

Height: 50 cm

Width: 47 cm

Depth: 39 cm

Weight: 40 kg

DESCRIPTION

German National store cash register from the 1930s.

CONSTRUCTION

The cash register's casing is made of a steel cast covered with a layer of chrome. The basis is a wooden chest with a cash drawer in it.

The offered cash register does not meet its original purpose, i.e., a device that calculates and fiscalizes sales. It is a collector's item for decor and interior design.
