Width: 21.5 cm

Depth: 44 cm

Diameter of the reflector: 21.5 cm

Depth of reflector: 16 cm

The maximum power of the bulb: 100 W

Weight: 1 kg

DESCRIPTION

The original Kaiser lamp type 8740 was designed in 1933 by Bauhaus master Christian Della. It is a classic example of industrial design from the 1930s.

The offered lamp is a rare version in the original green finish.

Producer: Gebruder Kaiser & Co.

CONSTRUCTION

Mounting bracket is made of die-cast aluminum. There is a switch and a steel flexible arm placed in it. The upper part is a diffuser of an asymmetrical form, typical for Kaiser. The company's signatures are located on the mounting element of the bulb holder for thread E-27 and on the desk holder.

The lamp has been thoroughly cleaned while maintaining the original paint coating. The electrical installation has undergone a professional technical service.
