

Lamp Charlotte, type 7529

Price:

Dimensions:

Diameter: 14 cm

Height: 25 cm

Weight: 0.5 kg

PRIMARY USE

The lamp was designed for the Philips label by one of the most renowned designers of the twentieth century - the French, Charlotte Perriand. The device was created in the 1950s and was originally used for treatment - the heat emitted by the infrared lamp effectively relieved muscle or joint pain. Currently, it has a decorative function.

CONSTRUCTION

The body and the base of the lamp are made of stamped sheet coated with varnish. It has a movable cover that moves on an aluminum oxidized rim. Frame holder and the base are originally signed with the manufacturer's logo. It can stand on a shelf or be hanged on a wall as a wall lamp. The lamp is in perfect condition.

Power supply: Original 150 Watt Philips bulb.
