

# Original Old Stage Lamp

Price:

**Dimensions:**

Overall height: 27cm

The height of the reflector: 19 cm

The width of the reflector: 14.8 cm

Reflector depth: 7 cm

Body diameter: 6 cm

Diameter of the assembly thread: 1.7 cm

## DESCRIPTION

The lamp was used for lower and side lighting of the theater stage. Mounted individually or in ten pieces in special metal covers.

*Country of origin: Poland*

*Production: 1960s*

## CONSTRUCTION

A metal reflector covered with a two-colored enamel, embedded in an aluminium body. The original brass bulb holder for E 27 base with a porcelain ring.

The condition of the lamp is very good, it bears slight traces of use and in some places the "patina of time". New electrical installation made of certified materials.
