

Polish Electric Factory Clock

Price:

Dimensions:
Diameter: 39 cm
Height: 28 cm

DESCRIPTION

Original Polish factory clock manufactured at the turn of the 1950s and 1960s.

CONSTRUCTION

A cover and a dial are made of pressed steel sheet covered with varnish. A classic mechanism powered directly by 220V mains voltage - does not require additional control with so-called "mother's clock".

The clock is working, thoroughly cleaned and protected with wax preserving the original paint coating and patina of time. The mechanism and electrical installation are after a professional service.
