

Vintage Polish Medical Scale

Price:

Dimensions:

Height: 143 cm

Width: 47.5 cm

Depth: 57.5 cm

Weight: 36 kg

DESCRIPTION

The original, mechanical medical scale from the 1950s, produced by Lubelska Fabryka Wag.

CONSTRUCTION

The body is made of cast iron. There is a L.F.W. company logo in the upper part. The front has a retractable steel sleeve with a scale for measuring heights from 100 to 200 cm.

The offered scale is able to efficiently and accurately weight in the range of 0-150 kg.

RANGE OF RENOVATION

The body has been thoroughly cleaned, with the original varnish and a patina of time retained. All steel chrome elements have been polished. The mechanism is after a service and application of a special grease.
