

Original Airline Catering Trolley

Price:

Dimensions:

Height: 103 cm

Width: 30.3 cm

Length: 80.8 cm

Wooden tabletop: 67 cm x 27.5 cm

Weight: 26 kg

PRIMARY USE

The original airline catering trolley that is among the equipment of the civilian passenger planes.

Manufacturer: Driessen

Production year: 2003

CONSTRUCTION

The trolley's box is made of lightweight aluminium, it has double-layer thermal walls and two pieces of doors closed with special stainless steel locks. Inside, the contoured walls allow mounting shelves. The trolley has 4 swivel double wheels equipped with a pedal-operated brake system. Very maneuverable and stabile.

RANGE OF RENOVATION

The trolley is fully restored - aluminium elements were sandblasted and the whole was covered with a layer of spray varnish with a colorless finish. The upper part is covered with a lacquered, solid wood top. It is possible to choose any color of the trolley based on the RAL color palette.
